WIT Occupational Health and Safety Management System Certification Standard is a standard that has been developed by WIT Engineering and Technology, a professional organization in the field of occupational health and safety management system certification, and has been approved by the Occupational Safety and Health Administration (OSHA).

The certification system is designed to ensure that organizations meet the requirements of the WIT Occupational Health and Safety Management System Certification Standard. The certification process involves a thorough review of the organization's management system, including its policies, procedures, and records, to ensure that it meets the requirements of the standard.
